*Does not meet the conclusion from the The Health Consequences of Involuntary Exposure to Tobacco Smoke: A Surgeon General's Report, 2006, that states, "eliminating smoking in indoor spaces fully protects nonsmokers from exposure to secondhand smoke. Separating smokers from nonsmokers, cleaning the air, and ventilating buildings cannot eliminate exposures of nonsmokers to secondhand smoke."

Smoke free air policies passed as of August 28, 2006.
